

# SEYEDEH NAJMEH GHASEMI

FULL-STACK WEB DEVELOPER

---

**DEAR HIRING TEAM AT TOO GOOD TO GO,**

I am writing to express my interest in the Entry-Level Full Stack Developer position at Too Good To Go. As a junior developer with a solid foundation in JavaScript, React, Node.js, and MySQL, I am excited about the opportunity to contribute to a meaningful mission like reducing food waste while continuing to grow my skills in a real-world, collaborative environment.

What excites me most about Too Good To Go is your tech-for-good mission and your commitment to sustainability. As someone who is deeply passionate about using technology to make a positive social impact, I would be proud to be part of a team that empowers millions to reduce food waste globally.

I am eager to continue learning and to grow as a developer in a supportive and agile environment. I would welcome the chance to contribute to your partner tools and internal platforms using React, TypeScript, and Express, while also gaining experience with tools like Material UI and Docker.

Thank you for considering my application. I would love the opportunity to discuss how my background and passion align with Too Good To Go's values and goals. I am available for an interview at your convenience.

**WARM REGARDS**
